

Application Development for Mobile and Ubiquitous Computing

Mobile library assistant Second Presentation

GroupNo. 09

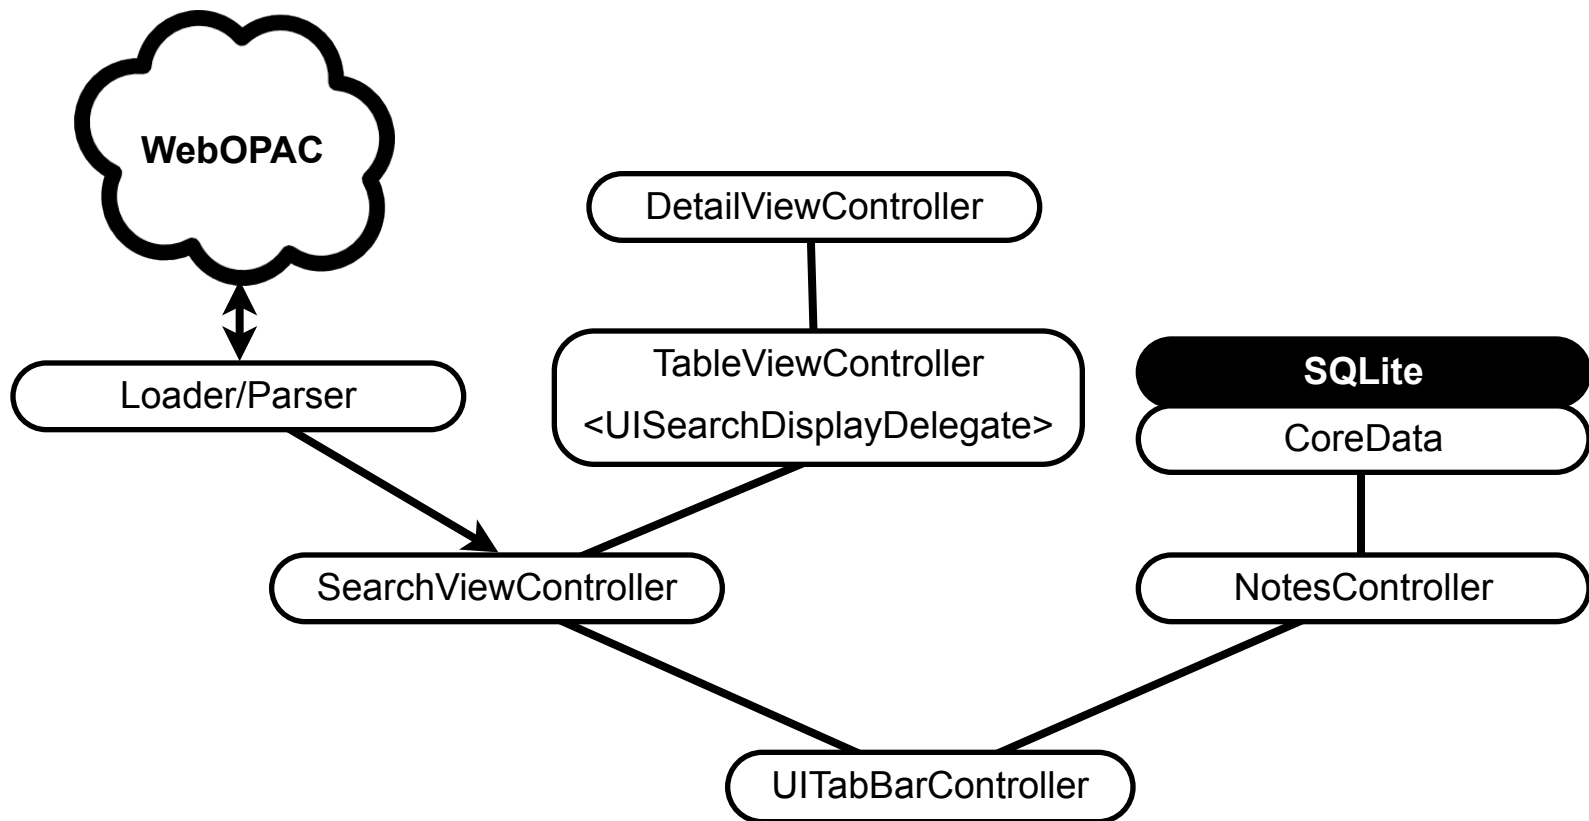

Team: Steffen Matthischke, Erik Sommer

- mobile access to library services + assistance

~~UI Screenshots~~

Demo

- no native testing on actual device
 - Usability testing
 - font sizes
- high traffic, because of no available interfaces
 - parsing of website
 - token

- UI improvement
 - get rid off placeholders
- account access
 - list of rented media
 - calendar reminder
- (test on actual device)
